LED light inside door frame

Left hinged glass door

Bottle Cooler with Left Hand Hinged Door

To save you the trouble of reversing the door, we have introduced this model with a left hinged door. The model is otherwise identical to the version with the right hinged door.

With a finish in pure black, the CEV425CP BLACK L/H is a great alternative to white units. Because of the black finish, the content of the unit is more eye-catching and elegantly presented.

This all-black cooler is perfect for shops, supermarkets as well as a larger upright backbars in pubs and restaurants. Anywhere you want to make a stunning display with wine, beer, or other beverages.

It has internal LED lighting in the door frame, which attracts more attention to the content. It is a highly presentable bottle fridge for display and offers great value for money.
